The Music City Couples Network, an organization of hundreds of loving and committed gay and lesbian couples believes that the Federal Marriage Amendment is an unconscionable assault on the rights of millions of American citizens, and is joining other organizations seeking its defeat.

According to the Human Rights Campaign (HRC), the amendment "would not only deny marriage to same-sex couples but could also deny any state legislature or electorate from ever voting to pass their own state's domestic partnership, civil union or marriage laws. Under the Federal Marriage Amendment, courts could be barred from enforcing the legal protections that a legislature provides through civil union or domestic partnership laws."

Civil marriage, other forms of relationship recognition, and basic civil rights protections are essential components that make all families, including families headed by same-sex couples, safer and more secure. Civil marriage and religious marriage are two separate things. Religious institutions will never be forced to bless relationships with which they disagree, just as today religious institutions can refuse to marry couples of different faiths or individuals who have been divorced.
